

# PCORI Advisory Panel on Healthcare Delivery and Disparities Research

---

Spring 2020 Meeting

June 11, 2020

# Housekeeping

- Webinar is available to the public and being recorded.
- Members of the public are invited to listen to this teleconference and view the webinar.
- Meeting materials will be posted on the PCORI website after the meeting.
- Anyone may submit a comment through the webinar chat function, although no public comment period is scheduled.
- Visit [www.pcori.org/events](http://www.pcori.org/events) for more information.
- Statement on COIs and confidentiality

1.

---

# Welcome and Introductions

# Panel Leadership

- **Nadine Barrett, PhD, MA, MS**  
HDDR Advisory Panel Co-Chair
- **Frank Wharam, MD, MPH**  
HDDR Advisory Panel Co-Chair
- **Steve Clauser, PhD, MPA**  
Director, Healthcare Delivery and Disparities Research Program

# HDDR Advisory Panel Members

## *Patient/Caregiver Advocate or Advocacy Organization*

- **Barbara Warren, Psy.D**  
Director for LGBT Programs and Policies in the Office for Diversity and Inclusion, Mount Sinai Health System and Assistant Professor of Medical Education
- **Carmen Pace, BSN, LPN, MPA, RN**  
Facing Our Risk of Cancer Empowered (FORCE)
- **Mary Grace Pagaduan, MPH**  
March of Dimes Foundation
- **Kathy Phipps**  
Community Health Worker, Memorial Hermann Health System
- **Ana Lopez, BSN, RN**  
Facing Our Risk of Cancer Empowered (FORCE)

## *Hospital/Health Systems*

- **Xiaoduo Fan, MD**  
Associate Professor, Psychiatry, University of Massachusetts Medical School

## *Industry*

- **Danielle Brooks, JD**  
Senior Consultant and Director of Patient Engagement, WiseThink Health Solutions; Founder & CEO, Bridges

## *Clinicians*

- **Jennifer Potter, MD**  
Professor, Beth Israel Deaconess Medical Center
- **Kathleen Kieran, MD, MSc, MME**  
Physician, Seattle Children's Hospital

# HDDR Advisory Panel Members

## *Researchers*

- **Alicia Arbaje, PhD, MD, MPH**  
Associate Professor of Medicine and Director of Transitional Care Research, Johns Hopkins University
- **Cheryl Holly, EdD, MED, RN**  
Professor, Rutgers School of Nursing
- **Rainu Kaushal, MD, MPH**  
Professor of Healthcare Policy and Research, New York-Presbyterian Hospital

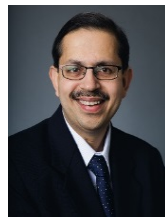

## *Payers*

- **Marissa D. Sanders, MPH, CPHRM**  
Manager, Quality Assessment, American Dental Association
- **Thomas James, III, MD**  
Chief Medical Officer, WellCare/Centene of Kentucky
- **Jane Kogan, PhD**  
Associate Chief Research and Translation Officer, UPMC Insurance Services Division and Center for High-Value Health Care
- **Rachel Raia, MPH**  
Director of Data Analytics, Ascension Health

# Healthcare Delivery and Disparities Research Staff

**Steve Clauser,**  
**PhD, MPA**  
Program Director

**Neeraj Arora, PhD**  
Associate Director

**Els Houtsmuller,**  
**PhD**  
Associate Director

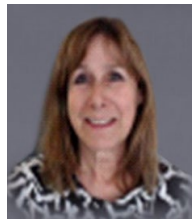

**Penny Mohr, MA**  
Senior Advisor

**Carly Parry,**  
**PhD, MSW**  
Senior Advisor

**Allison Ambrosio,**  
**MPH**  
Sr. Program Manager

**Beth Kosiak, PhD**  
Program Officer

**Mari Kimura, MS,**  
**PhD**  
Program Officer

**Andrea Brandau,**  
**MPP**  
Program Officer

**Carly Khan, PhD,**  
**MPH, RN**  
Program Officer

**Vivian Towe, PhD,**  
**MSc, MA**  
Program Officer

**Cathy Gurgol,**  
**MPH**  
Sr. Program Officer

**Sindhura Gummi,**  
**MPH**  
Sr. Program Associate

**Soknorntha Prum,**  
**MPH**  
Sr. Program Associate

**Juliette Price,**  
**MPH**  
Program Associate

**Brendan**  
**Weintraub, MPH**  
Program Associate

**Candace Hall,**  
**MA**  
Program Associate

**Tshema Nash, MPH**  
Program Associate

**Aaron Shifreen**  
Program Associate

**Metti Duressa**  
Program Associate

**Rachel Kotiah**  
Sr. Administrative  
Assistant

**Elizabeth Zofkie,**  
**MPH**  
Program Associate

# Welcome New HDDR Staff

**Vivian Towe, PhD, MSc, MA**  
Program Officer

# Agenda

# Agenda

## **(Times in Eastern)**

- 11:30 AM HDDR Program Updates
- 12:30 PM Welcome from PCORI Executive Director
- 1:15 PM Break
- 1:45 PM National Priorities and Research Agenda
- 2:30 PM Overview of PCORI Reauthorization
- 3:00 PM Break
- 3:15 PM Cost Data Provision
- 4:30 PM Wrap-Up

# 3.

---

## Healthcare Delivery and Disparities Research Program Updates

Steven Clauser, PhD, MPA

Director, Healthcare Delivery and Disparities Research  
Program

# HDDR Updates

---

- New Research Awards
- Research and Learning Networks
- Update on Priority Initiatives
- Research in the Pipeline

---

# New Research Awards

**PCORI HAS AWARDED OVER**  
**\$990** **MILLION** **TO FUND** **234**  
**COMPARATIVE EFFECTIVENESS STUDIES IN**  
**HEALTHCARE DELIVERY AND DISPARITIES RESEARCH.**

As of April 2020

Funding Mechanism	# of Projects
Broad	177
Pragmatic	21
Targeted	36

# New Research Awards

Recent  
Awards

4

Improving Healthcare Systems Broad Awards

2

Addressing Disparities Broad Awards

# New Broad Awards: Improving Healthcare Systems

Study Title	PI Name	Site
Comparative Effectiveness of Readmission Reduction Interventions for Individuals with Sepsis or Pneumonia	Namita Ahuja Yende	UPMC Center for High-Value Health Care
Pediatric Trauma Care Models' Impact on Family Experience, Traumatic Stress, and Financial Hardship	James Marcin	UC Davis
Comparative Effectiveness of Perinatal Psychiatric Access Programs on Treatment Engagement	Thomas Mackie	Rutgers Biomedical and Health Sciences
Comparative Effectiveness of Mobile Integrated Health versus Chronic Care Model for Post-Discharged Heart Failure Patients	Rainu Kaushal	Weill Medical College of Cornell University

# New Broad Awards: Addressing Disparities

Study Title	PI Name	Site
Examination of the Evidence-Based Care Transitions Intervention Enhanced with Peer Support to Reduce Racial Disparities in Hospital Readmissions and Negative Outcomes Post Hospitalization	Kyaïen Conner	University of South Florida
Comparing Mobile Health Strategies to Improve Pre-exposure Prophylaxis Use (PrEP) for HIV Prevention	Albert Liu	Public Health Foundation Enterprises, Inc

# Examining Our Portfolio – Cancer Care

- Board of Governors Presentation on December 2, 2019
  - Overview of PCORI's Cancer CER Portfolio
  - Study Findings to Date
  - Summary and Next Steps
- Desire to consider new stakeholder-driven topics

# Studies Address Decisional Dilemmas Across the Patient's Cancer Journey

## Prevention and Early Detection

- **Uptake in priority populations**
- Risk-based approaches to screening
- Communication and decision-making

## Treatment

- **Comparison of treatment options**
- Symptoms and side effects
- Caregiver burden
- Models of care
- Communication and decision-making

## Survivorship

- **Post-treatment surveillance**
- Symptoms and side effects
- Caregiver burden
- Models of care

# Examining Our Portfolio – Community Health Workers

## Board of Governors Presentation - March 2, 2020

- Overview of PCORI's Community Health Worker (CHW) Portfolio
  - Complexities in reducing health and healthcare disparities
  - Understanding the role of CHWs
  - Study spotlights across PCORI's CHW portfolio
- PCORI Awardee Presentations
  - Raj Shah, PhD and Kevin English, DrPH, University of New Mexico
    - *Reducing Health Disparity in Chronic Kidney Disease in Zuni Indians*
    - *Home-Based Chronic Kidney Disease (CKD) Care in Native Americans of New Mexico: A Disruptive Innovation*
  - Shreya Kangovi, MD, University of Pennsylvania and Keysha Brooker, MSW
    - *Effectiveness of Collaborative Goal-Setting Versus IMPaCT Community Health Worker Support for Improving Chronic Disease Outcomes*
    - *Implementation of the IMPaCT Community Health Worker Intervention*

---

# Research and Learning Networks

# Research and Learning Networks

- Transitional Care Evidence to Action Network (TC-E2AN)
- Palliative Care Learning Network
- Telehealth Research Portfolio Synthesis Group
  - Discussion on Telehealth research in COVID era – Penny Mohr

# Transitional Care Evidence to Action Network (TC-E2AN)

- 3 new studies have been added, for a total of 29 studies, ~\$128 million investment
- Hosted webinar addressing methodological challenges caused by COVID-19 interruptions
- *Medical Care* approved a Special Issue based on a prospectus highlighting work from the TC-E2AN.
  - Targeted release: Summer 2021
  - Includes commentaries, an editorial, several composite topic-driven papers, and papers from individual studies
- Generating summary report from the 5 years of the network
- Virtual webinar meeting may occur this fall

# Palliative Care Learning Network

- HDDR has created a learning network of nine multi-site palliative care CER studies that were funded in FY2017 for a total investment of ~\$81 million
  - Six studies focus on models of palliative care delivery and three focus on advance care planning
- Network goals: foster co-learning across awardee teams; facilitate collective success of the projects; contribute to the field via joint presentations and publications
- 2020 Network activities:
  - Advance care planning awardees were accepted for a joint panel presentation at the American Academy of Hospice and Palliative Medicine Annual Assembly in March 2020
  - 4<sup>th</sup> annual in-person awardee meeting being planned for Fall 2020
  - Ongoing conference calls facilitated by HDDR among investigators and project managers
- Progress of these studies will be summarized in an annual report in June 2020

# Telehealth Research Portfolio Synthesis Group

- Large and diverse portfolio; current investment is 94 studies amounting to ~\$400 million
- Supporting ongoing manuscripts led by investigators on the following topics:
  - Addressing Disparities through Telehealth
  - Examining Evidence Gaps in the Use of mHealth for Self-Management of Chronic Disease
  - Challenges in Addressing Large, Multi-site, Multi-state Pragmatic Trials in Telemedicine
- Cross-PCORI COVID-19 Telehealth Work Group
  - Goal: What is shifting in the field of telehealth in relation to the COVID-19 pandemic and how does that alter the way we think about future investment in this area moving forward?
    - Evaluate telehealth project enhancements, adaptations, and newly funded projects under COVID-19
    - Understand evidence gaps around telehealth innovations (e.g., primary and urgent care)
    - Communicate to outside stakeholders' findings and lessons learned that may be relevant to groups rapidly implementing telehealth

# Update on Priority Initiatives

- Suicide Prevention
  - Iterative topic prioritization with stakeholders
  - Brief Interventions for Youth (ages 15-24) identified as high priority topic
- Congressional mandates
  - Maternal Mortality
    - Significant interest in research questions regarding maternal care coordination, patient/provider education, and wrap around services
    - Ongoing engagement and research to refine CER questions related to obstetrical emergencies and perinatal mental health
  - Intellectual and Developmental Disabilities
  - Ongoing engagement to identify gaps and refine research topics
    - Interest in research questions related to transition to adulthood, treatments across the life course, and care delivery

---

# In the Pipeline

# Upcoming Targeted Research Opportunities

## COVID-19 Targeted PFA

- Up to \$30M funds available
- PFA Posted: May 2020
- Awards to be Announced: **July 2020**

### *Targeted Priority Areas:*

- Adaptations to health care delivery
- COVID-19 impact on vulnerable populations
- Impact of COVID-19 on healthcare workforce

# Upcoming Broad Research Opportunities

## 2019 Cycle 3 Broad PFA

- Addressing Disparities: Up to \$4M funds available
- Improving Healthcare Systems: Up to \$8M funds available
- PFA Posted: September 2019
- Awards to be Announced: **July 2020**

## 2020 Cycle 1 Broad PFA

- Addressing Disparities: Up to \$8M funds available
- Improving Healthcare Systems: Up to \$16M funds available
- PFA Posted: January 2020
- Awards to be Announced: **November 2020**

# Phased Large Awards for Comparative Effectiveness Research (PLACER), Cycle 3 2020

- **Purpose:** To foster large, meritorious, and innovative studies with some risks, increase PCORI funding that directly compares clinical options, and improve success by managing risks of large research investments
- **PLACER is a new and distinctive addition** to the existing PCORI funding suite of Pragmatic Clinical Studies (PCS), Targeted studies, and Broad studies in:
  - Needing larger scale and scope to answer critical research question
  - Having residual uncertainties with non-trivial risks for full, up-front funding
  - Having sufficient evidence and stakeholder interest to warrant investment in further refinement before full-scale execution

PFA Timeline	Dates
PFA release	6/9/20
LOIs due	9/29/20
Applications due	1/12/21
Awards announced	July 2021

Funding	Amount
Feasibility phase	≤ \$2M direct costs
Full-scale study phase	≤ \$20M direct costs
Funds available	\$150M

# 2020 PCORI Annual Meeting

September 16-17, 2020

Virtual Meeting

# Executive Director Report

# COVID-19 Pandemic – Not Only a Stress Test, But Also Learning Opportunity

**Advancing PCORI 2.0**  
A Learning Organization  
Nimbly Embracing  
Opportunities in a Crisis for  
Short and Long-term Impact

# PCORI's Multi-Pronged Approach in Response to the COVID-19 Health Crisis

In our efforts to inform the current pandemic and learn for the future, PCORI has identified **three priority areas**:

**Health Care Delivery**

**Vulnerable Populations**

**Health Care Workers**

Many approaches to supporting critical work in these three areas and more:

## **Awards**

- Enhancements of existing awards
- Solicitation of new awards, e.g., natural experiments
- Health care worker registry and trial

## **Information Sharing**

- Webinars
- Collaboration with other funders

## **Adapting for Awardees and Applicants**

- Adaptations to existing projects
- Extending application timelines

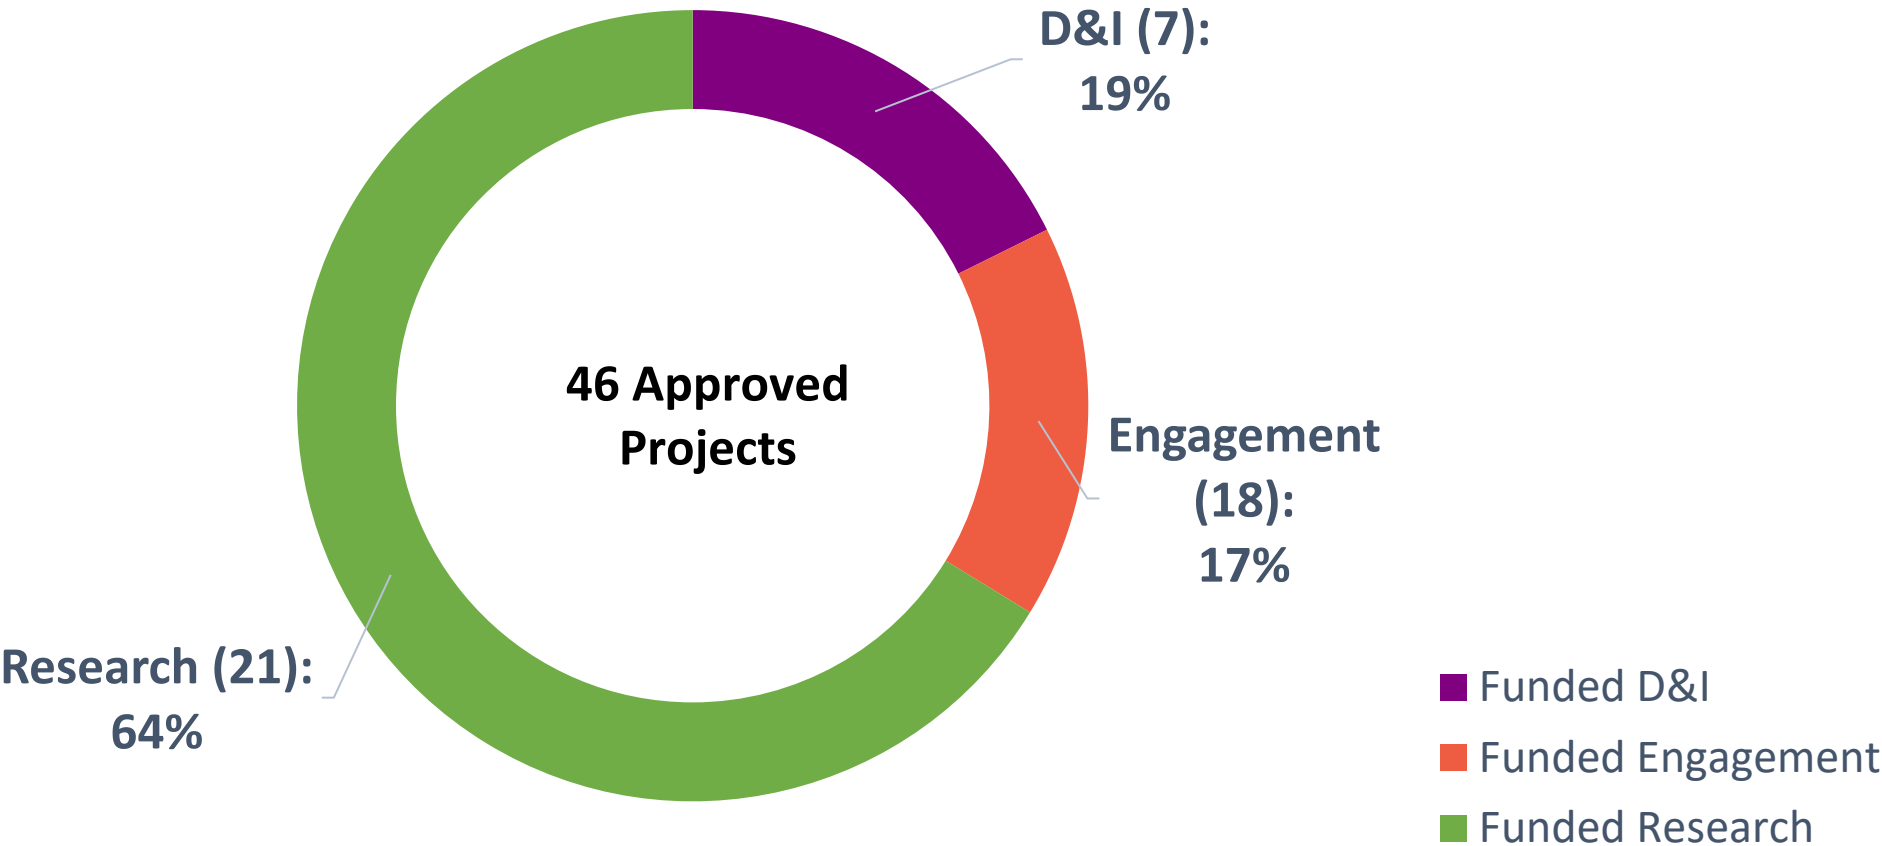

# COVID-19 Enhancements – Current PCORI Funding

## Funded Enhancements Data

Last updated: June 10, 2020

# COVID-19 Enhancements – Current PCORI Funding

# PCORI – Always Relevant

## *Meaningful research questions in health care delivery*

Does pre-exposure prophylaxis with HCQ reduce rates of COVID-19 among healthcare workers?

What are the most effective practices for telehealth? Can this natural experiment shed light on whether telehealth can deliver similar outcomes for patient care and management?

What are the predictors of poor outcomes in COVID-19 infection and can we systematize predictive algorithms to determine who is likely to need intensive care?

What approaches are effective in eliminating health and health care disparities in COVID outcomes and how are they generalizable to disparities more broadly?

# PCORI 2.0: Opportunities to Accelerate Impact on Care Delivery and Patient Health Outcomes

## Engagement

- New and sustained partnerships
- Diverse stakeholder inclusion
- Bipartisan congressional support

### **Impact:**

- *Patients, payers, systems as partners for dissemination & uptake*
- *Evidence to implementation*
- *PCORI integral in research ecosystem*

## Innovation

- Patient-centered learning healthcare
- Rapid cycle of evidence to implementation
- Pragmatic approaches to ↓ disparities

### **Impact:**

- *“Real-time” implementation of findings*
- *Uptake into guidelines & care*
- *Reduced variation in care & disparities in conditions/pops*

## Operations

- Creative funding approaches
- Efficient & effective processes

### **Impact:**

- *Nimble and adaptable methods to speed innovation to results to patients*
- *Robust pool of outstanding research (built capacity)*

# PCORI 2.0: Opportunities to Accelerate Impact on Care Delivery and Patient Health Outcomes

## Engagement

### **Impact:**

- *Patients, payers, systems as partners for dissemination & uptake*
- *Evidence to implementation*
- *PCORI integral in research ecosystem*

## Innovation

### **Impact:**

- *"Real-time" implementation of findings*
- *Uptake into guidelines & care*
- *Reduced variation in care & disparities in conditions/pops*

## Operations

### **Impact:**

- *Nimble and adaptable methods to speed innovation to results to patients*
- *Robust pool of outstanding research (built capacity)*

### **Impact in Post COVID-19 Era:**

- *Hospitals and healthcare systems working together*
- *Gaps in evidence for decision-making driving research*
- *PCORI essential*

### **Impact in Post COVID-19 Era:**

- *"Real-time" queries, output, and implementation*
- *Accelerated uptake*
- *Acute focus on variation in care & disparities*

### **Impact in Post COVID-19 Era:**

- *Nimble and adaptable processes, research*
- *Clearer approach to leveraging data, technology, infrastructure*
- *Expanded research pool*

# Envisioning PCORI 2.0

**Advance Patient-Centered Learning Health Care**

**Reduce Health Disparities**

**Disseminate & Implement Scientific Findings**

*Engage Stakeholders*

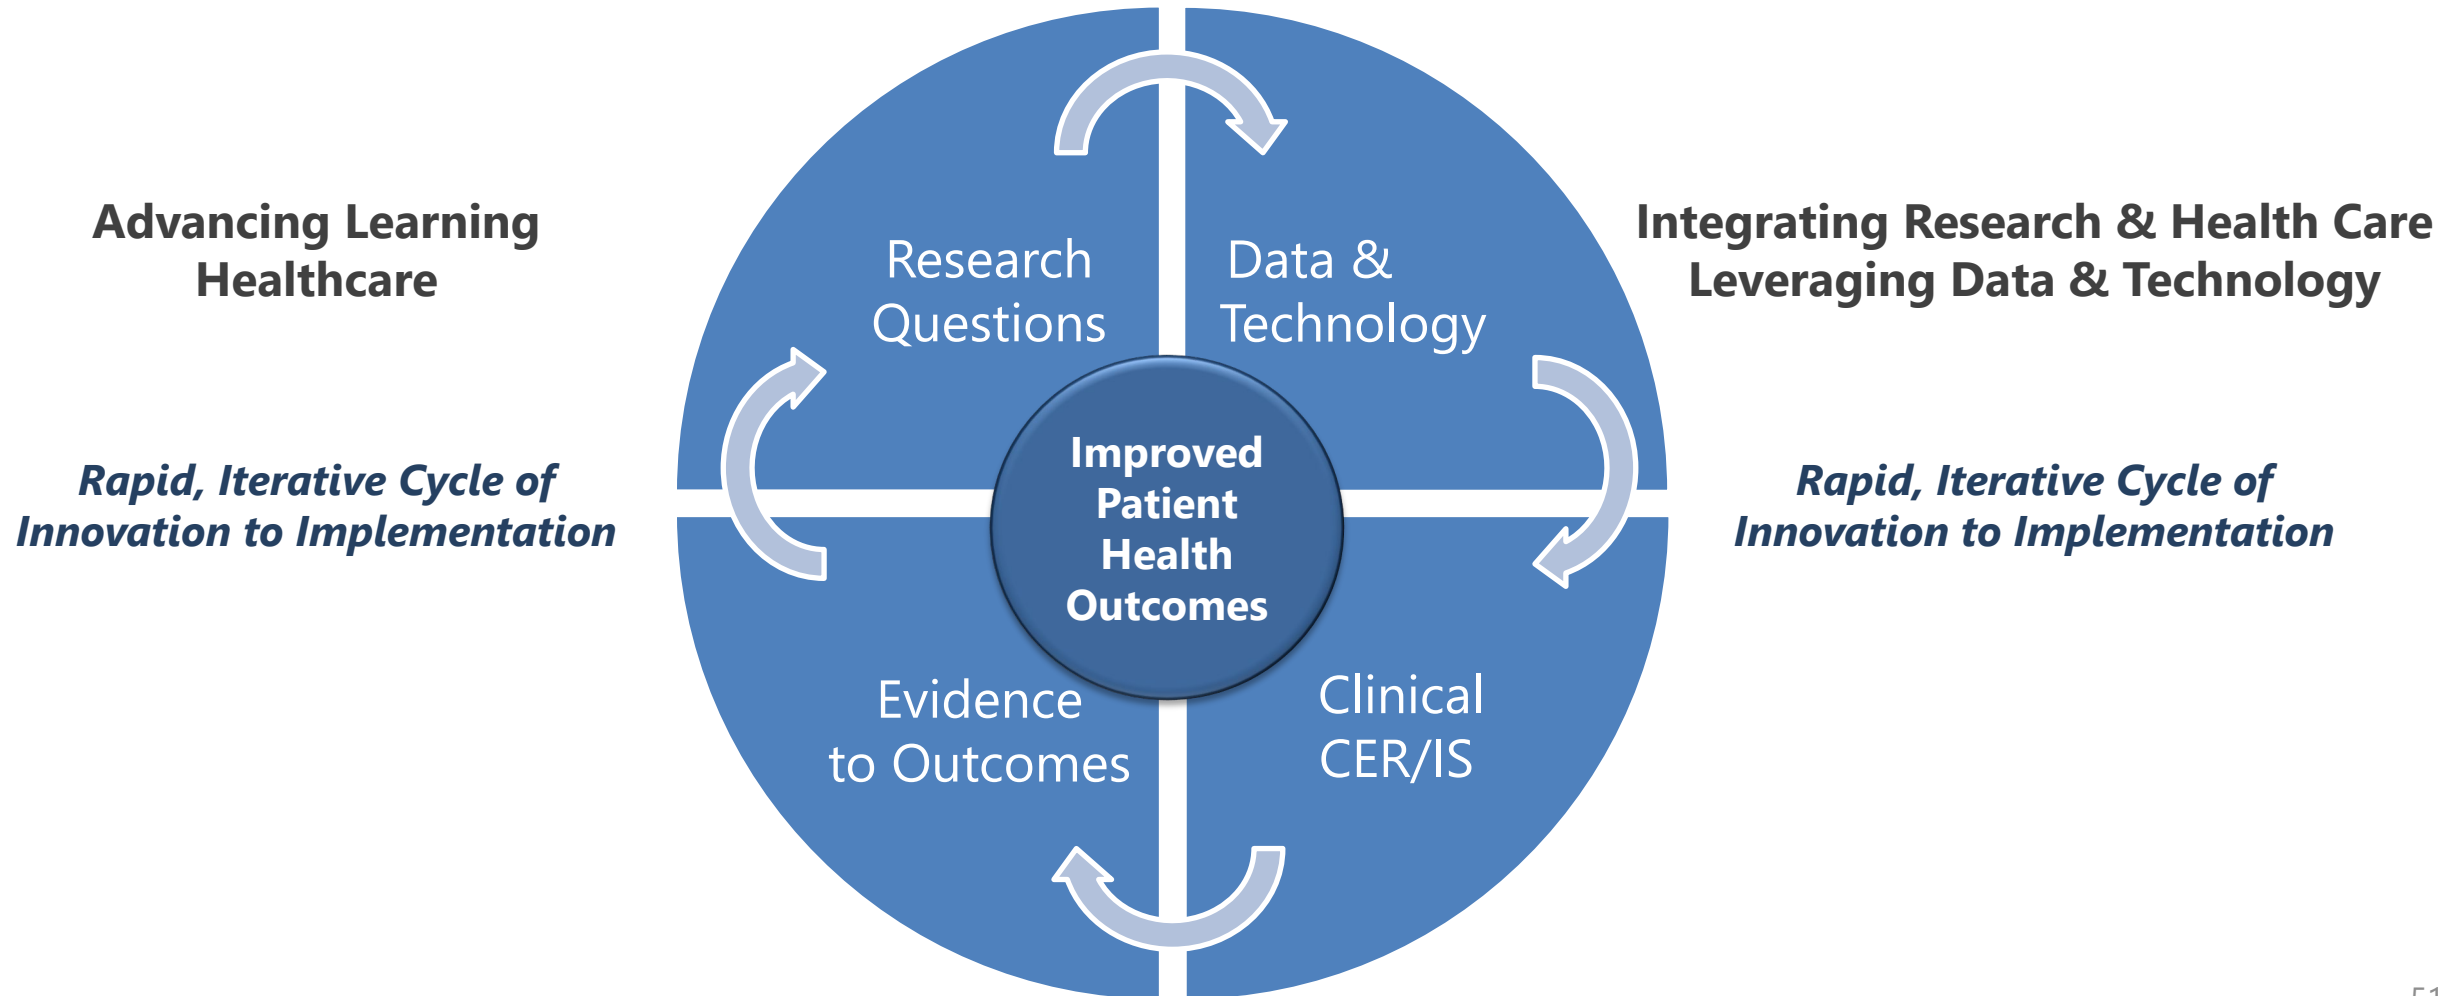

*Crowdsource*

*Reflect, Discuss*

*Comment*

**Generate Evidence:  
Patient-Centered & Relevant to Patients**

# PCORI 2.0: A Virtuous Cycle of Evidence to Implementation

# Navigating Our Course Together

- **My First Few Months at PCORI**
  - My Personal Journey
  - Early Onboarding
  - Passionate and Mission-Driven PCORI Staff and Board
- **Envisioning PCORI 2.0**
  - Opportunities for the Future
  - Learning in a Public Health Crisis
- **Our Course Together**
  - Year 1 Priorities

# Navigating Our Course Together

## First Year Focus

- Onboarding and Virtual Listening Tour
- PCORI's Response to the COVID-19 Pandemic
- National Priority Setting and Development of Research Agenda and Strategic Plan
- Other Priorities Stemming from Legislation (e.g., Maternal Mortality, Intellectual and Developmental Disabilities, Cost Outcomes)

# Collaborative Strategy to Advance a Vision for PCORI 2.0

## Refreshing National Priorities, Research Agenda, and Strategic Plan

Garner diverse input to guide scientific directions

*Patients, Clinicians, Researchers, Purchasers, Payers, Industry,  
Hospitals & Health Systems, Policy Makers, Training Institutions*

Listening Tour  
*Board & Staff*

Conduct portfolio analyses & evaluate research programs

Refine priority research areas

Develop implementation plans

Align resources with research priorities

# HDDR Advisory Panel

## *National Priority Setting and Research Agenda*

What are the driving questions to fulfill PCORI's comparative clinical effectiveness research agenda?

How do we generate the evidence to advance the health system's ability to address health equity?

How do we advance the important work of Addressing Disparities amid the current pandemic?

What are the critical resource and workforce issues to implement these considerations for the next phase for PCORI?

# Questions?

1:15-1:45 PM Eastern

*\*Webinar will resume at 1:45 PM*

Looking Forward

---

Refreshing PCORI's  
National Priorities

Spring 2020 Advisory Panels

# Agenda

1. Statutory Mandates
2. Current National Priorities
3. Looking Forward: Panelists' Perspectives on a Refresh

1.

---

Statutory Mandate

# National Priorities

- Required under PCORI's authorizing law.
- Identification is a core duty—the first enumerated duty—of the Institute
- Intended to guide PCORI and provide transparency to the public on the Institute's investment strategy in patient-centered comparative clinical effectiveness research

## Subtitle D—Patient-Centered Outcomes Research

### SEC. 6301. PATIENT-CENTERED OUTCOMES RESEARCH.

(a) IN GENERAL.—Title XI of the Social Security Act (42 U.S.C. 1301 et seq.) is amended by adding at the end the following new part:

#### “PART D—COMPARATIVE CLINICAL EFFECTIVENESS RESEARCH

##### “COMPARATIVE CLINICAL EFFECTIVENESS RESEARCH

“SEC. 1181 [42 U.S.C. 1320e]. (a) DEFINITIONS.—In this section:

“(1) BOARD.—The term ‘Board’ means the Board of Governors established under subsection (f).

“(2) COMPARATIVE CLINICAL EFFECTIVENESS RESEARCH; RESEARCH.—

“(A) IN GENERAL.—The terms ‘comparative clinical effectiveness research’ and ‘research’ mean research evaluating and comparing health outcomes and the clinical effectiveness, risks, and benefits of 2 or more medical treatments, services, and items described in subparagraph (B).

“(B) MEDICAL TREATMENTS, SERVICES, AND ITEMS DESCRIBED.—The medical treatments, services, and items described in this subparagraph are health care interventions, protocols for treatment, care management, and delivery, procedures, medical devices, diagnostic tools, pharmaceuticals (including drugs and biologicals), integrative health practices, and any other strategies or items being used in the treatment, management, and diagnosis of, or prevention of illness or injury in, individuals.

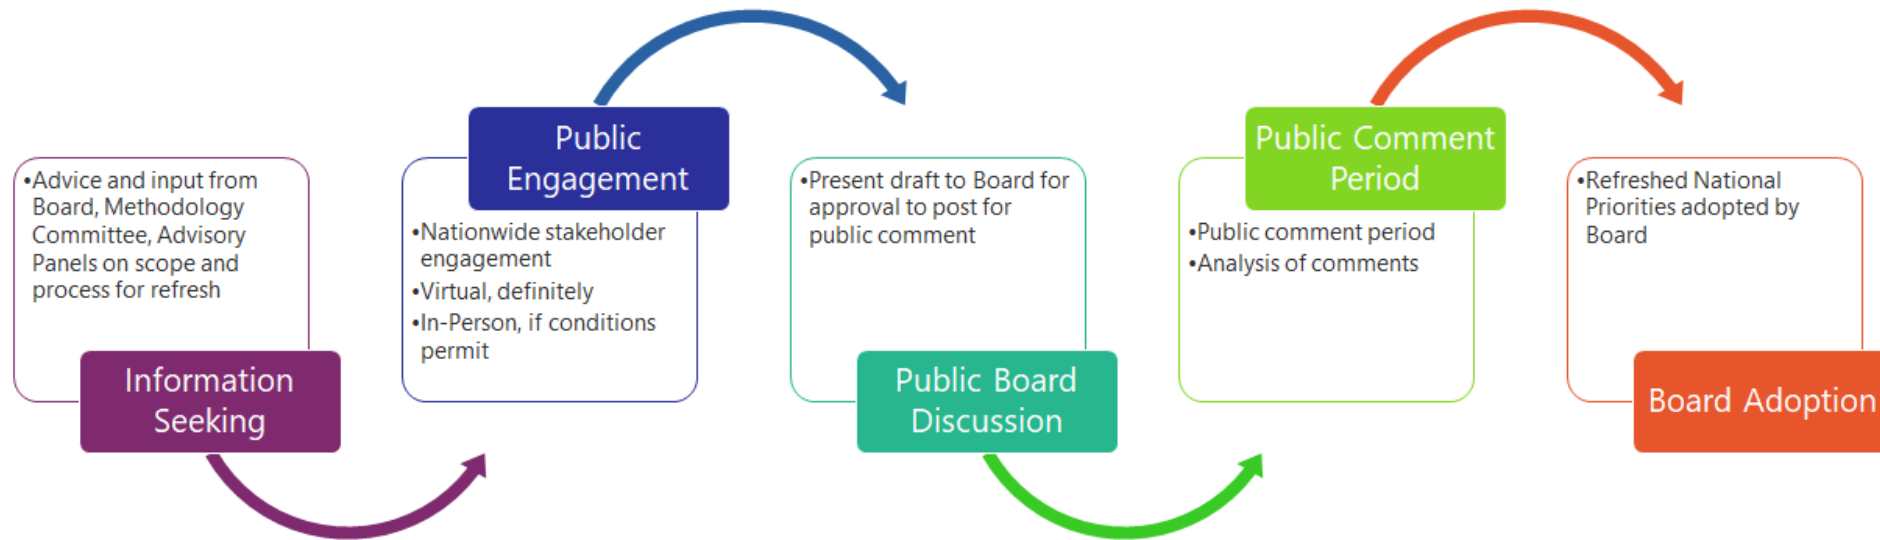

# National Priorities

- The Institute shall identify national priorities for research, taking into account **factors of disease** incidence, prevalence, and burden in the United States (with emphasis on chronic conditions), **gaps in evidence** in terms of clinical outcomes, **practice variations** and **health disparities** in terms of delivery and outcomes of care, the **potential for new evidence** to improve patient health, well-being, and the quality of care, the effect on national expenditures associated with a health care treatment, strategy, or health conditions, as well as patient needs, outcomes, and preferences, the relevance to patients and clinicians in making informed health decisions...

*\*emphasis added*

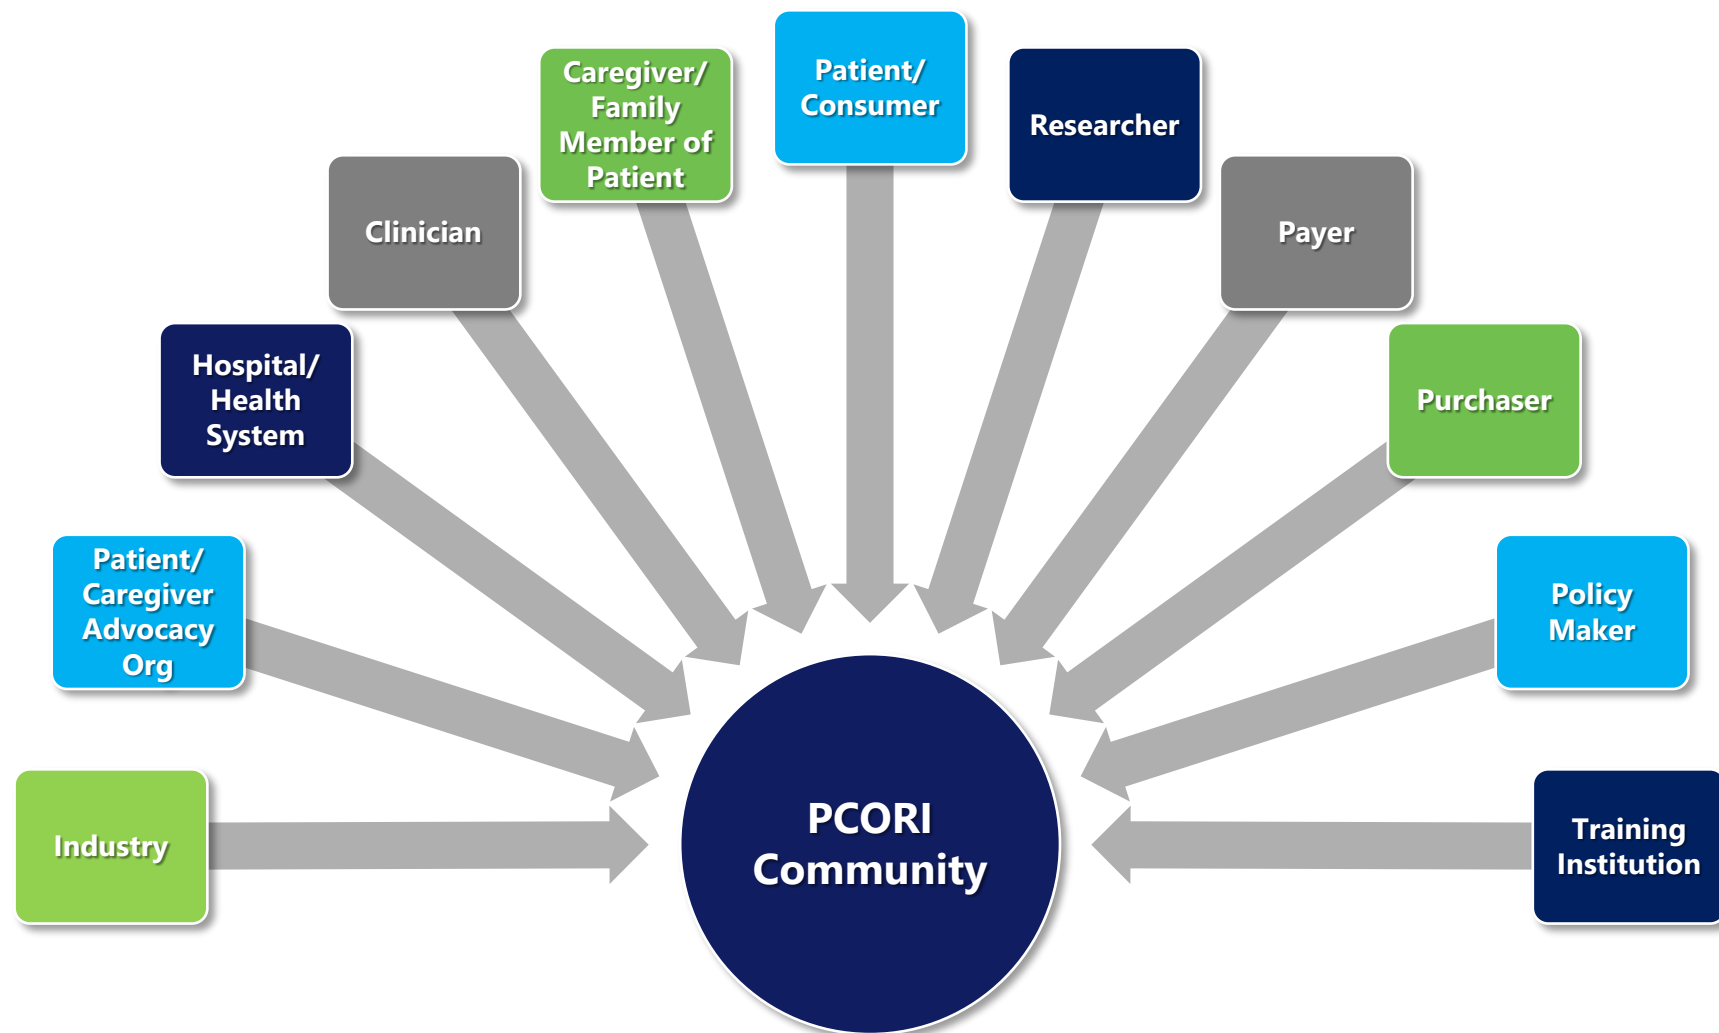

# Mandated Process

- Formal Public Comment is required
  - Minimum: 45 days
  - Maximum: 60 days
- Final approval/adoption rests with PCORI Board of Governors

# Whom We Will Engage

- PCORI
  - Board of Governors
  - Methodology Committee
  - Advisory Panels
- Our Stakeholders across the Nation

2.

---

Current  
National Priorities

# Our Current National Priorities

## Our prior approach

- Broad national priorities
- Articulation of criteria to inform the *process* for establishing a research agenda

### Assessment of Prevention, Diagnosis, and Treatment Options

- Comparing the effectiveness and safety of alternative prevention, diagnosis, and treatment options to see which ones work best for different people with a particular health problem.

### Improving Healthcare Systems

- Comparing health system-level approaches to improving access, supporting patient self-care, innovative use of health information technology, coordinating care for complex conditions, and deploying workforce effectively.

### Communication and Dissemination Research

- Comparing approaches to providing comparative effectiveness research information, empowering people to ask for and use the information, and supporting shared decision-making between patients and their providers.

### Addressing Disparities

- Identifying potential differences in prevention, diagnosis or treatment effectiveness, or preferred clinical outcomes across patient populations and the healthcare required to achieve best outcomes in each population.

### Accelerating Patient-Centered Outcomes Research and Methodological Research

- Improving the nation's capacity to conduct patient-centered outcomes research, by building data infrastructure, improving analytic methods, and training researchers, patients and other stakeholders to participate in this research.

***Energy & Commerce***

Don Beyer (D-VA)  
***Ways & Means***

## Senate Champions

Mark Warner (D-VA)

Bill Cassidy (R-LA)

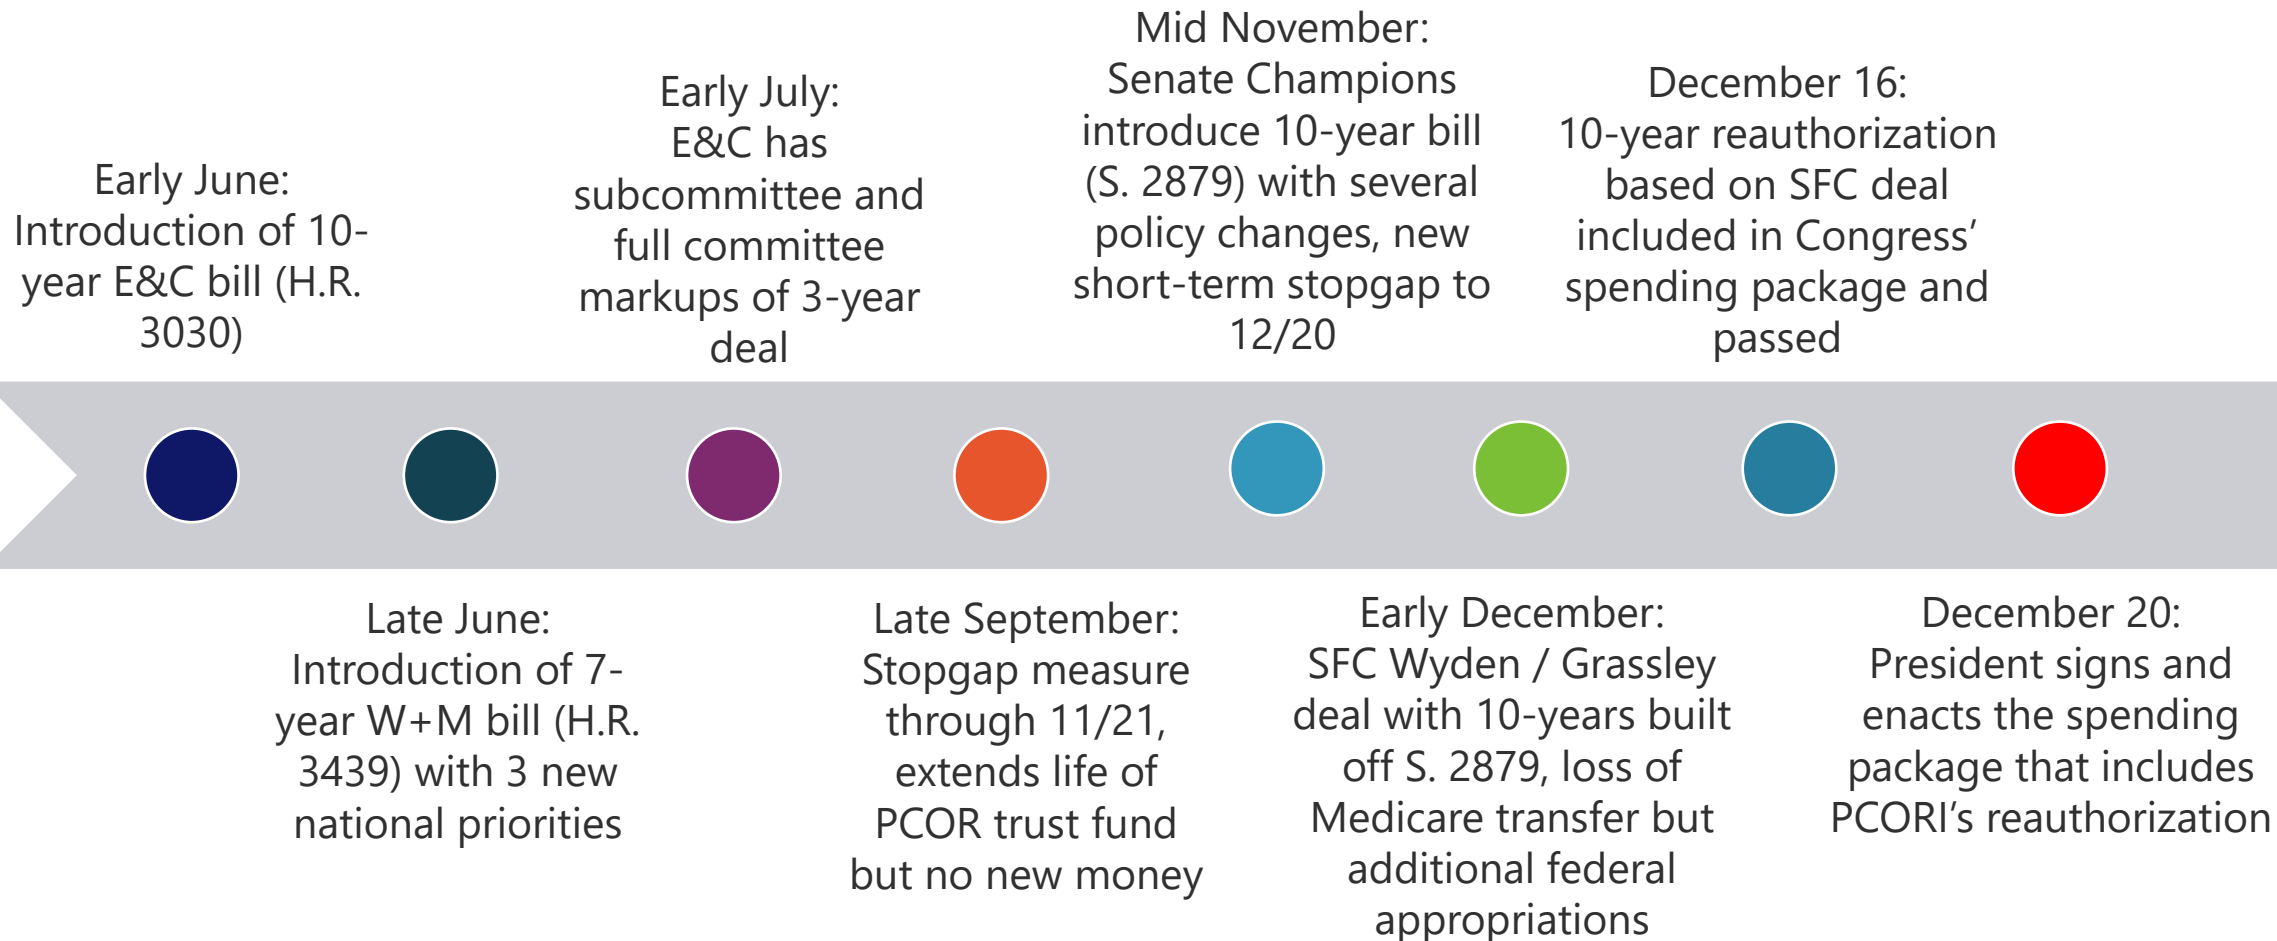

Chris Van Hollen (D-MD)

Shelly Moore Capito (R-WV)

# Legislative Activity

# PCORI's Reauthorization Language

---

# Overview of What the Final Reauthorization Language Looks Like

- Extends funding for **10 years**
- Replaces funding from the **Medicare Trust Fund** by increasing **mandatory federal appropriations** to the PCOR Trust Fund
- Adds **intellectual and developmental disabilities** and **maternal mortality** as research priorities
- Requires PCORI to **balance long- and short-term priorities** when identifying research priorities
- Permits PCORI funded studies to **collect certain economic data**, where appropriate
- Increases **private payers representatives** on the Board by up to two slots
- Shifts **Methodology Committee members** appointments to the **PCORI Board**
- Strengthens and formalizes PCORI's **dissemination and implementation** mandate
- Directs GAO to review certain **barriers** to conducting research
- GAO to **analyze PCORI's dissemination program**

PCORI authorized through  
**September 30, 2029**

---

**Funding will remain approximately consistent  
with previous 10 years**

# Health Insurance Policies and Self-Insured Health Plans

Continues the per-life covered fee on private health insurances, self-insured and employer-sponsored health plans funding to the PCOR Trust Fund.

# Identification of Research Priorities

Adds two new research priorities:

- 1. Maternal mortality**
- 2. Intellectual and developmental disabilities**

PCORI must reflect a **balance of short- and long-term priorities** and **be responsive to changes** in medical evidence and treatments

# Consideration of Full Range of Outcomes Data

Where appropriate, PCORI-funded studies may capture data on the **potential burdens and economic impacts** of the utilization of medical treatments, items, and services for all stakeholders. This data includes:

- Medical out-of-pocket costs, including:
  - Health plan benefit
  - Formulary design
- Healthcare utilization
- Nonmedical costs to patients and family, including:
  - Caregiving
  - Effects on future costs of care
  - Workplace productivity
  - Absenteeism

This compromise language **does not** remove statutory prohibitions on PCORI establishing cost-per quality adjusted life year (QALY) thresholds or allow PCORI to conduct cost-effectiveness analyses

# Board Composition

Raises the number of PCORI Board members appointed by the GAO to at least 19, but not more than 21

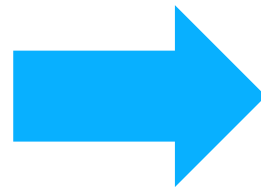

Adds up to two more payer/purchaser representatives to the Board, for a total of up to five slots

- The Directors of the NIH and AHRQ continue to serve on the Board.
- Additionally, Board members who are appointed to fill a vacancy are eligible for a full-term reappointment following the completion of the remainder of their predecessor's term

# Methodology Committee Appointments

Switches responsibility for appointing  
Methodology Committee members

**From the  
GAO**

**PCORI Board of  
Governors**

Directs the GAO to review and report to Congress about:

- PCORI's **dissemination, training, and capacity-building activities**
- **PCORI's dissemination program**
- **Any barriers researchers encounter** during studies, including challenges covering the cost of treatments, services, or items

Joanna Siegel, Bill Lawrence,  
Penny Mohr

# Consideration of Full Range of Outcomes Data

Where appropriate, PCORI-funded studies may capture data on the **potential burdens and economic impacts** of the utilization of medical treatments, items, and services for all stakeholders. This data includes:

- Medical out-of-pocket costs, including:
  - Health plan benefit
  - Formulary design
- Healthcare utilization
- Nonmedical costs to patients and family, including:
  - Caregiving
  - Effects on future costs of care
  - Workplace productivity
  - Absenteeism

This compromise language **does not** remove statutory prohibitions on PCORI establishing cost-per quality adjusted life year (QALY) thresholds or allow PCORI to conduct cost-effectiveness analyses

# Consideration of Full Range of Outcomes Congressional and Stakeholder Intent

- Congressional leaders and stakeholders across the healthcare community weighed in on whether to include provisions directing PCORI to capture additional economic/cost-related data.
- The goal of this provision is to direct PCORI-funded research to better inform healthcare decisions based on the clinical effectiveness, impact on patient-reported outcomes, **and** potential economic and cost burden.
- The provision is a compromise between stakeholders to ensure PCORI-funded research capture both population-level (i.e., utilization, ROI, etc.) and patient-centric (i.e., caregiver burden, impact on medical out-of-pocket costs, etc.) data.
- This compromise language **does not** remove statutory prohibitions on PCORI establishing cost-per quality adjusted life year (QALY) thresholds or allow PCORI to conduct cost-effectiveness analyses.

# Consideration of Full Range of Outcomes Early Stakeholder Input on Implementation

## Summary of the key take-aways for implementation include:

- Ensure **transparency**, notably patient engagement, throughout implementation
- Identify the **long-term goals** of capturing this data to inform implementation efforts
- Consider the **full range of treatment options** and the **investment costs** for payers and health systems to implement practice change
- Need to **develop standards** around identifying and capturing patient-centric cost data
- **Concerns around the use/misuse** of cost data that could lead to cost-effectiveness or inappropriate value assessment
- Hope to **expand beyond traditional health economic perspectives** on cost/value

# Considerations of Full Range of Outcomes

## Tentative Implementation Proposal

### Phase 1

- Providing guidance to PIs in future PFAs on how they should interpret this policy and incorporate it into their research proposals.
- **Timeline:** Complete Phase 1 by January 5, 2021

### Phase 2

- Establishing standards and methods to inform the field on how to capture relevant data.
- **Timeline:** 12 months from the initiation of this process

### Phase 3

- Convening discussions on how this information can/should be used.
- **Timeline:** Ongoing Discussion

**Thank you!**
