

Transforming Patient-Centered Research: Building Partnerships and Promising Models

Breakout Session and Discussion Murals
October 27-28, 2012

Patient-Centered Outcomes Research Institute

Transforming Patient-Centered Research: Building Partnerships and Promising Models

- PCORI's October 2012 workshop, ***Transforming Patient-Centered Research: Building Partnerships and Promising Models***, included five breakout sessions to help PCORI implement a patient-centered research agenda through sustained and meaningful engagement.
- Nearly 150 patients and other stakeholders participated in the workshop in person. Following small group breakout sessions on Oct. 27, all participants reconvened together on Oct. 28 to review and discuss the input and recommendations developed.
- A mural was created for each breakout session topic to illustrate the ideas and concepts generated.
- PCORI's next step is the publication of report that summarizes the workshop's findings, which will guide PCORI's work.

Workshop Breakout Sessions

- 🌐 **Identifying and Selecting Research Questions** – *How should PCORI identify and select specific research questions for funding that are patient-centered?*
- 🌐 **Reviewing Research Proposals for Funding** – *How can PCORI effectively engage and use the real-world experience of patients to help evaluate research proposals we receive?*
- 🌐 **Matching Patients and Stakeholders with Researchers** – *How can PCORI connect patients and stakeholders with researchers for collaborative work that ensures studies reflect patient perspectives?*
- 🌐 **Disseminating Research to the Community** – *How do we ensure that patients and those who care for them can access and use PCORI's research to make more-informed decisions?*
- 🌐 **Evaluating PCORI's Patient and Stakeholder Engagement Programs** – *How can PCORI measure the effectiveness of its programs to involve patients and stakeholders throughout its work?*
